XA will provide more info on format in the next couple of days. The usual format for hearings is that we prepare questions and answers for the briefing book. A prepared statement is sometimes created. If you scroll to the bottom of Monica's message, she provides the general topics that we have been given at this point in time.

**Subject:** Hearing Preparation - need your assistance - response due by 9 am Wednesday April 9

All - In preparation for a potential US Congressional hearing on the Intercontinental Terminals Company (ITC) incident, the Emergency Management Branch is assisting Erin and David in developing hearing material which David may use in responding to questions. Based on the April 5, 2019, Texas House subcommittee hearing on this

incident, it is likely that David will be asked questions which are related to specific programs outside of the emergency response program. Additionally, due to the KMCO facility incident in Crosby, Texas which occurred during the week of March 31,2019; it is likely that David may be asked questions related to KMCO. As such, we are asking that you identify a point person(s) for your division who will be responsible for compiling questions and answers your division envisions David receiving, as well as developing responses to questions which we have uploaded to a SharePoint site.

We need to have a draft of questions and responses to share with David by noon Friday April 12, 2019.

We ask that you provide the name(s) of the individuals who will need access to the SharePoint site for this task by 9 am Wednesday April 9, 2019.

Some topics to be covered include:

- Response Actions
- Response Authorities
- Permits the facility has
- Water Discharge
- Compliance History
- Applicable Regulatory Programs and requirements
